

University of Pittsburgh School of Pharmacy

PHARM 5404 Syllabus

2244: Spring 2024

Mission of the PharmD Program

The Pitt Pharmacy Doctor of Pharmacy Program inspires students to personalize their education and become medication experts, inter-professional collaborators, and leaders who advocate, champion, and act to improve health, wellbeing, and quality of life for individuals and communities.

Course Title, Course Number, Credit Allowance

Adv. Pharmacy Exp. 4- Inpatient/Acute Care, Pharm 5404, 5 credits

Professional Year and Terms Offered

Year: Professional 4, Fall, Spring, Summer Terms

Days, Times, Location

Full-time, five weeks in length, minimum of 200 experiential hours

Prerequisites/Co-Requisites

1. Students must successfully complete all required Doctor of Pharmacy course work in the first 3 professional program years.
2. Students must have a cumulative GPA > 2.0.
3. Students must meet all prerequisite conditions as set forth in affiliation agreements specific to the site.

Participating Faculty and Support

Coordinator, Susan Skledar, sjs15@pitt.edu, 412-648-1504

Coordinator, Ashley Yarabinec, aby12@pitt.edu, 412-383-5229

Course Description

During this rotation students will develop their pharmaceutical care skills for patients who are in an institution, or healthcare facility (e.g., hospital).

Skills to be developed through direct patient care include:

- Proper use of patient-specific comprehensive data (patient/caregiver interviews, past medical records, medication history, physical exam findings, diagnostic and laboratory data) for making drug therapy decisions that reflect pharmaceutical care.
- Developing safe and cost-effective patient-specific pharmaceutical care plans with specific goals to resolve or prevent drug-related problems. These plans should be developed using previously gathered data and knowledge of pharmacokinetics, pharmacodynamics, social, cultural, ethical and humanistic factors.
- Proper implementation of patient-specific pharmaceutical care plans through written and oral communication. Plans should be communicated so that patients as well as other health care providers can understand their scope, nature and importance. Plans should inform all those involved of the risks and benefits of therapy, as well as clearly outline the proper use and desired

outcome.

- Clearly document, using appropriate style and language, pharmaceutical care plans and patient care activities in the medical chart when appropriate.
- Monitoring of patient-specific pharmaceutical care plans through collection and interpretation of pertinent data. All care plans should be assessed to see if previously defined goals have been achieved. In assuming the responsibility for outcomes it may be necessary at times to reevaluate treatment plans or therapeutic goals.

PittPharmacy Outcomes Addressed by the Course

Learner

Problem Solver

Communicator and Educator

Ally, Promoter & Champion

Provider

Medication Use Steward

Interprofessional Collaborator

Leader

Self-Aware

Professional & Advocate

Key Words Identifying Core Content

Pathophysiology, Pharmaceutical Calculations, Pharmacogenomics/genetics, Pharmacology, Cultural Awareness/Sensitivity, Ethics, Healthcare Systems, Personal Management, Practice Management, Professional Communication, Professional Development and Identity, Clinical Pharmacokinetics, Patient Assessment, Patient Safety, Pharmacotherapy, Public Health, Self-Care Pharmacotherapy

Learning Objectives

- 1) Demonstrate foundational scientific and practice knowledge to achieve patient-centered care and population health
 - Disease states including pathophysiology, anatomy/physiology
 - Medication therapy including pharmacology, pharmacokinetics, dosing
 - Workflow and process for safe and efficient practice

PittPharmacy Outcome: Learner

- 2) • Use the Pharmacists' Patient Care Process to develop individualized, patient-centered care plans in collaboration with the patient, other healthcare professionals, and/or caregivers
 - Review manual or electronic patient record/profile to accurately identify factors affecting therapy, health or disease management
 - Create and/or update patient record/profiles accurately and in a timely manner
 - Accurately create a drug-related problem list with prioritization of problems
 - Assess appropriateness of patient medication therapy (e.g., medication, dose, route of administration, rate of administration, volume, etc.)

- Make appropriate and complete recommendations for care: non-pharmacologic and pharmacologic
- Establish therapeutic outcomes/goals via a prioritized drug-related problem list
- Identifies and evaluates feasible therapeutic alternatives, following the site's formulary and established guidelines
- Designs and manages drug therapy regimens to enhance outcomes
- Accurately identify, manage, and prevent drug-related problems and make appropriate decisions
- Assess regimens for efficacy and toxicity
- Selects parameters that are specific, measurable, achievable and associated with time frames
- Redesigns regimen as necessary
- Demonstrate ability to appropriately triage patient for treatment or referral

PittPharmacy Outcome: Provider

- 3) • Interpret, evaluate and clarify written prescriptions of medications to ensure appropriate, safe, and cost-effective patient care, including selection of product, dosage form, route, and methods of administration
- Comply with local policy, state and federal laws, recommendations of regulatory agencies, and best practices
 - Perform calculations for medication dosages to ensure optimized regimens for patient-specific needs
 - Manage the medication use system (i.e., procurement, storage, prescribing, transcription, dispensing, administration, monitoring, and documentation) as it pertains to direct patient care while ensuring safety, efficacy, and efficiency.
 - Detect and report actual and potential medication errors and adverse drug events to identify underlying causes and minimize/prevent patient harm
 - Understand and apply guidelines of the hospital formulary and evidence-based recommendations and protocols
 - Understand the role of the acute care pharmacist in all steps of the medication use process/medication management

PittPharmacy Outcome: Medication Use Steward

- 4) • Accurately assess patient health literacy, health status and care needs, and adapt care plans based on diverse individuals and populations, to diminish disparities and inequities in care
- Interpret data and information to assess health needs of an individual, community, and/or population, across the continuum of care
 - Take responsibility for health outcomes while making culturally responsive, ethical, and equitable decisions that represent the best interest of the individual and community

PittPharmacy Outcome: Ally, Promoter, and Champion

- 5) • Effectively and respectfully collaborate with technical support staff, pharmacy team, and other healthcare providers, to optimize care
- Demonstrate appropriate human relations skills: displaying interest in others; sensitivity, empathy, acting in the best interest of others
 - Demonstrate formal and informal leadership by taking responsibility for creating trust and

open communication

- Demonstrate skills of management including resources to accomplish goals, demonstrating the ability to manage self, others, and roles in medication use systems
- Participate in the pharmacy's formulary management and quality improvement programs

PittPharmacy Outcome: Leader

- 6) • Identify challenges that may affect the practice setting
- Suggest and/or develop creative approaches to improve quality or overcome barriers
 - Use critical thinking skills to include interpretation, analysis, evaluation, inference, and explanation
 - Retrieve, evaluate and use scientific literature to provide information and/or make therapeutic decisions

PittPharmacy Outcome: Problem Solver

- 7) • Effectively document interventions and care team communications in patient record/profile, documentation systems, and the electronic health record
- Effectively communicate and engage with patients, caregivers, healthcare professionals, and the community to provide medication and health information
 - Communicate effectively and professionally via written and verbal methods, to articulate knowledge and recommendations with empathy, sympathy, confidence, and respect
 - Use appropriate persuasion techniques to positively impact medication use
 - Educate/interact with patients, healthcare professionals, and the general public regarding health promotion, disease prevention, disease management, transitions of care, and wellness

PittPharmacy Outcome: Communicator and Educator

- 8) • Demonstrate desire to maintain professional competency through principles of life-long learning
- Advocate for change to improve health and well-being for all
 - Demonstrate the characteristics of a pharmacy professional

PittPharmacy Outcome: Professional & Advocate

- 9) • Collaborate with the interprofessional team, including patients, caregivers, other health care disciplines, non-healthcare collaborators, and community members
- Consult and intervene with patients and healthcare regarding medications and other needed therapies/modalities
 - Participate and engage as a healthcare team member with respect and understanding of shared values, and knowledge of one's role, and roles of others on the team

PittPharmacy Outcome: Interprofessional Collaborator

- 10) • Set personal and professional goals to achieve objectives, including obtaining new skills and knowledge
- Be a life-long learner who is able to examine and self-reflect on knowledge and skills that may enhance, or limit, personal or professional identity formation
 - Demonstrate the characteristics of a pharmacy professional
 - Manage time wisely to maximize productivity and fulfill rotation obligations
 - Maintain situational awareness and the need for professionalism in all settings

PittPharmacy Outcome: Self-Aware

Methods of Learning

Ability outcomes will be evaluated based on the student's performance of various tasks throughout the rotation. The methods of learning will vary with the rotation site, but will include observations, activities, and discussions with patients, pharmacists and other health professionals. Self-study and reflection will also be included.

Textbooks and Other Learning Resources

Learning resources will vary with the rotation site. The following is a list of suggested resources to assist the student in performing activities:

1. Dipiro JT, et al, editors. *Pharmacotherapy: A Pathophysiologic Approach*. McGraw-Hill, New York, NY.
2. Koda-Kimble MA, et al, editors. *Applied Therapeutics: The Clinical Use of Drugs*. Wolters Kluwer | Lippincott Williams & Wilkins, New York, NY.
3. Loscalzo et al, editors. *Harrison's Principles of Internal Medicine*. McGraw-Hill, New York, NY.
4. Lacy CL, et al, editors. *Drug Information Handbook*. Lexi-Comp, Inc., Hudson, OH. (Pocket edition and PDA version also available.)
5. Many resources are available via University of Pittsburgh Health Sciences Library, including a variety of databases and full-text online journals, at <http://www.hsls.pitt.edu>.

Class Attendance Policy and Grade Implications

1. Any absences by students of one day or less per rotation should be handled by the student and the preceptor. In these instances it is the preceptor's decision and responsibility to specify and outline a plan for the make-up of the missed day.
2. Any absences in excess of one day per rotation will require the student to complete an "Absence Request" form (see E*Value site). If possible, this form should be submitted to the preceptor and Ms. Anna Schmotzer in the Office of Experiential Learning at least six weeks prior to the scheduled absence. In the event the absence is not scheduled (i.e., illness, emergency), the student must notify the preceptor as soon as the absence is going to occur, and the form should be submitted to the preceptor and Ms. Anna Schmotzer in the Office of Experiential Learning within three days of the student's return. It is the responsibility of the Director of Experiential Learning, working with the preceptor, to determine if the student can successfully complete the rotation and outline a plan for the make-up of the missed days.
3. Days missed due to interviews and attending professional meetings (e.g., ASHP Midyear

Meeting) are considered absences and the guidelines outlined previously should be followed. Students must discuss interview schedules and professional meetings six weeks before rotation start date. It is the preceptor's decision if the student time off can be granted and made-up. The guidelines outlined in item # 1 and # 2 must be followed.

4. If the student is attending a professional meeting during a scheduled APPE, by the Monday following the end of the rotation, the student must submit a one-page reflection to the Pitt Pharmacy Dashboard about their experience at the meeting.

5. Absences for family vacations, personal travel, or other non-rotation/non-school reasons are not excused absences. Repeated absences from a rotation will result in an unsatisfactory grade for that rotation.

Course Requirements and Grading

H/S/U

Honors/Satisfactory/Unsatisfactory

Core Requirements and Grading

Core requirements must be completed. If a core requirement cannot be completed due to a site-specific reason, the preceptor must provide an explanation in the student's evaluation. Assignments specific to the site may supersede or supplement the core requirements at the discretion of the preceptor.

CORE REQUIREMENTS

- Complete 5 patient work-ups per week (total 25/rotation). Provide a written SOAP note including use of the PPCP for 5 of these cases (1/week).
- Document on PITT Form 40 drug therapy/drug-related problems with patient-specific solutions.
- Complete and present 1 formal and 3 informal case presentations.
- Provide drug information responses, including references, to 3 drug information requests.
- Attend 1 interdisciplinary meeting and provide written summary of what was discussed.
- Write a summary of the roles of the healthcare professionals who are integrated into patient care at the site.
- Write a 1-2 page reflection on a health inequity you encountered or discovered on the rotation, discussing the systems in place that contribute to the inequity and the real or potential impact on patients. Discuss the inequity and brainstorm possible resolutions or mitigation strategies with your preceptor and include this in your reflection. Include a service or initiative that the pharmacy provides to address the inequity, if applicable.
- Write a 1-2 page reflection about the rotation, linking learning to curricular and/or co-curricular outcomes.

Optional Requirements (if site offers opportunity for the experience)

- Present/lead one journal club article discussion.
- Prepare 2 written discharge/transfer medication counseling plans for patients at an age-appropriate level (5th grade).
- Attend 2 conferences such as medical or pharmacy grand rounds, noon conference, resident seminar, or patient care conference and, for one conference, provide a written summary of

the content. Include the name of the primary speaker or presenter.

Students can use the P4 Experiential Learning Activity Summary for APPE Rotations document to track completion of assignment. Assignments should be posted to the Pitt Pharmacy Dashboard to document progression toward mastery of curricular outcomes. The PITT Form Summary report is not required if the APPE is a pure elective experience.

COURSE GRADING

Students will be assessed using the Preceptor Evaluation of APPE Student form utilizing the Stages of Professional Mastery to assess their ability to function as a pharmacist. Grading is on a satisfactory / unsatisfactory basis. Honors will be awarded to those students who exhibit exceptional skills, mastery of all ability outcomes and perform additional activities beyond those required. Grades will be based on student's pharmacy practice skills, knowledge and attitude. Skills will be assessed through direct observation of patient care activities at the practice site.

Students will be required to perform a mid-point and final self-evaluation and the preceptors will collaborate to perform a mid-point (end of week 2) and final evaluation. The preceptors will provide feedback on student performance on an ongoing basis throughout the rotation. Formal feedback will be documented on the Preceptor Evaluation of APPE Student form and submitted electronically to the Office of Experiential Learning.

A grade of "Unsatisfactory" will be awarded to students who earn such grade with actions including but not limited to:

- Inability to complete core requirements, evaluations, and portfolio requirements by assigned deadlines
- Poor quality of work, including failure to meet site expectations
- Multiple unexcused absences from site
- A pattern of tardiness and/or unprofessional conduct
- Recommendation by preceptor for student removal from site due to unprofessional conduct including HIPAA or other institutional policy violations or unprofessional behavior
- Preceptor evaluation of unprofessional behaviors as denoted by responses of "NO" on evaluations under the "Professional Behaviors and Attitudes" section

Academic Improvement Outreach Statement

Fourth Professional (P4) Year:

The P4 year consists of three terms, starting in the summer term immediately following the P3 year.

1. A student who earns a "U" grade on an APPE rotation must repeat the same type of rotation in an off-block or in a block after the last scheduled rotation for the P4 year.
2. A student who fails to earn a passing grade in the repeated rotation, or earns a "U" grade in any subsequent rotation, will be dismissed from the program.

Course remediation regarding performance on APPEs will only be available if in compliance with experiential learning policies after discussion with the Course Coordinator and preceptors.

Equity, Diversity, and Inclusion Statement

The University of Pittsburgh does not tolerate any form of discrimination, harassment, or retaliation based on disability, race, color, religion, national origin, ancestry, genetic information, marital status, familial status, sex, age, sexual orientation, veteran status or gender identity or other factors as stated in the University's Title IX policy. The University is committed to taking prompt action to end a hostile environment that interferes with the University's mission. For more information about policies, procedures, and practices, visit the Civil Rights & Title IX Compliance web page.

As faculty, we ask that everyone in the class strive to help ensure that other members of this class can learn in a supportive and respectful environment. If there are instances of the aforementioned issues, please contact the Title IX Coordinator, by calling 412-648-7860, or e-mailing titleixcoordinator@pitt.edu. Reports can also be filed online. You may also choose to report this to a faculty/staff member; they are required to communicate this to the University's Office of Diversity and Inclusion. If you wish to maintain complete confidentiality, you may also contact the University Counseling Center (412-648-7930).

Inclusivity Statement

To proactively prevent structural discrimination in the classroom, it is the responsibility of instructors to select and include materials that are inclusive, accessible, equitable, and diverse along all axes of minoritized experience. This includes using language and examples in our lectures and case studies that combat and redress stereotypes as well as establishing and supporting a class climate that fosters belonging for all students. It is the responsibility of all members of this course to contribute to a respectful, welcoming, and inclusive environment for every member of the classroom community. Any suggestions about other ways to further increase inclusion and access in this course are welcome.

Wellness Statement

Becoming a health care professional means not only caring for others, but caring for yourself. Do your best to maintain a healthy lifestyle this semester by eating well, exercising, avoiding drugs and alcohol, getting enough sleep, and taking time to relax. Using your time to take care of yourself will actually help you achieve your academic goals.

All of us benefit from support and guidance during times of struggle. There are many helpful resources available at Pitt. An important part of the college experience is learning how to ask for help. If you or anyone you know experiences any academic stress, difficult life events, or difficult feelings like anxiety or depression, we strongly encourage you to seek support. Consider reaching out to a friend, family, faculty or staff member you trust for assistance connecting to the support that can help.

The University Counseling Center is here for you: call 412-648-7930 and visit their website. If you or someone you know is feeling suicidal, call someone immediately, day or night:

University Counseling Center (UCC): 412 648-7930

University Counseling Center Mental Health Crisis Response: 412-648-7930 x1

Course Remediation Statement

After final grades have been assigned, this course will utilize processes as detailed in the PharmD Program Course Remediation Policy.

Student Disability Statement

If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact your instructor and Disability Resources and Services, 140 William Pitt Union, 412-648-7890, drsrecep@pitt.edu, or 412-228-5347 for P3 ASL users, as early as possible in the term. DRS will verify your disability and determine reasonable accommodations for this course.

Academic Integrity Statement

Students enrolled in the pharmacy program are also considered to be members of the pharmacy profession and must adhere to the same professional, ethical, and legal standards. It is a violation of the School's code of conduct policy for a student to engage in any act of academic misconduct, such as cheating, plagiarism, deceitful practice, unauthorized collaboration, harassment, or breach of confidentiality. It is also considered to be a violation of the code of conduct policy for a student to tolerate any of the aforementioned acts by other students. Cell phones and audible alarms must be silenced during class.

Audio-Video Recording Statement

To ensure the free and open discussion of ideas, students may NOT record classroom lectures, discussions, and/or activities without the advance written permission of the instructor, and any such recording properly approved in advance can be used solely for the student's own private study.

Copyright Statement

These materials may be protected by copyright. United States copyright law, 17 USC section 101, et seq., in addition to University policy and procedures, prohibit unauthorized duplication or retransmission of course materials. See Library of Congress Copyright Office and the University Copyright Policy.
